

## **Despite roadblocks, the newsletter continues!**

Our newsletter layout person (who is also our websteward), Kieron M., spent most of his waking hours last month (and quite a few when he should have been sleeping!) getting his new store open, but still somehow managed to produce our monthly Newsletter before the first of the month! Kudo's to Kieron! And while we're at it - a shameless plug for his business, which is recycling print cartridges. Please patronize the new Cartridge World store, conveniently located at Merrimon Avenue and Edgewood Road, within walking distance of the Meetinghouse. If you happen to be at the Meetinghouse during business hours.

This month's newsletter is chock full of inspirational readings and poetry, and you'll find a familiar column has returned: Tidbits! You can view this month's edition by [clicking here](#) For dial-up users, this issue will take about one minute to download. Paper copies are available by mail or in the Meeting foyer.
